

# RLDC•2016 CINCINNATI LAMPOSIUM

The LAM Foundation and Rare Lung Diseases Consortium welcomed rare lung disease organizations and thought leaders to attend the International Rare Lung Diseases Research Conference in September 2016. Researchers, clinicians, patients and families gathered for a purpose driven event where LAM and rare lung disease research were discussed in detail, trials were planned for pediatric ILD, PAP and PLCH, and patient participation put a human face on rare lung diseases.
